RE: APPROVAL TO IMPLEMENT REMEDIAL ACTION PLAN

Dear Mr. Nye:

The Bureau of Underground Storage Tank Regulations (BUSTR) has reviewed your Remedial Action Plan report dated July 14, 2005. BUSTR has determined that the proposed remedial actions are appropriate and the public notice requirement for the remedial action plan (RAP) has been completed. BUSTR therefore grants approval to implement the plan. The Ohio Administrative Code 1301:7-9-13(P), effective March 1999, describes your responsibilities for implementing your RAP. You must submit any applicable monitoring reports to BUSTR in accordance with the timetable described in your RAP.

Any changes to the RAP must be submitted to, and have prior approval from, BUSTR. If conditions warrant, BUSTR may require modification of the RAP.

Any excavated soil shall be managed as petroleum contaminated soil (peS) unless laboratory analysis indicates otherwise. Underground storage tank owners and/or operators are requested to complete and submit a "Petroleum Contaminated Soil Form". The completion of this form, along with all applicable supporting documentation, will allow the BUSTR staff to verify proper PCS disposal. A separate form must be completed for each soil pile or containerized soil group.

Publications that may help you to understand the requirements for compliance with BUSTR's rules and regulations may be found on the Internet at www.com.state.oh.us or by calling our office.

Thank you for your cooperation. If you have any questions, please contact me at 614-728-5121.
